

Speaker Biography

Charlie Perry is a manager in Technology Integration with the Deloitte consulting practice in Halifax. Charlie is a past director of information technology and management at the Nova Scotia Worker's Compensation Board, Mount St. Vincent University and Dalhousie University. Charlie has worked in the consulting industry for the past 10 years and has significant practical experience in the public and education sectors.

As a 30 year IT/IM veteran, Charlie has significant practical experience, has implemented business and technical solutions in a variety of environments and brings forth extensive knowledge and know-how in strategic planning, project management and solutions delivery. Charlie is focused on a central theme of helping organizations transform their operations through aligning the business, information, and technology.

Charlie is a mentor to many Deloitte initiatives in the portfolio, program and project domain, advising on implementations to ensure quality and maximum business value throughout the process.
